Art Unit: 2829

1. The following is an examiner's statement of reasons for allowance: the prior art does not disclose method and apparatus for monitoring live electrical equipment at high or medium voltage having a combination of at least one sensor unit placed on the equipment, comprising a first radio antenna, a sensor for producing a digital signal related to a determined physical parameter at a point to be monitored, and amplitude-modulation means connected to the sensor and to the first antenna, and activated by the energy received by said antenna, a transceiver unit placed outside the equipment and having a second radio antenna for emitting a radio wave to illuminate the first antenna, a power supply source, and signal processing means connected to the second antenna and the first antenna retransmitting towards the second antenna the radio wave that has been transmitted thereby, while simultaneously amplitude-modulating it in response to the output signal of the sensor, said signal processing means being arranged to provide a signal related to said parameter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
